

THE BLOOMFIELD CITIZEN.

VOL. X. NO. 29.

BLOOMFIELD, N. J., SATURDAY, NOVEMBER 19, 1892.

PRICE FIVE CENTS.

THE DEMOCRATS CELEBRATE.

THEY EXPRESS THEIR GREAT JOY OVER THE RESULT OF THE ELECTION.

A Large Parade of Men Carrying Brooms and Flags—Plenty of Red Fire and Fireworks.

On Saturday night last the Democrats of this town gave vent to their feelings of joy over their party's great victory at the polls on the 8th inst. Invitations to participate had been sent to every Cleveland supporter in the town, and shortly after seven o'clock Broad Street, in the vicinity of Democratic Headquarters, began to fill up with people. A display of fireworks and music from the Watessing band stirred the enthusiasm of the crowd. Brooms and American flags were distributed among the paraders, who numbered about three hundred.

Shortly after eight o'clock the Crisp and Dickerson uniformed batteries, headed by Pierson Post's full drum corps, arrived and took their position at the head of the procession, and the line moved up Broad Street amid cheering.

The line of march had been changed from that printed in last week's CITIZEN, and the procession turned down Liberty Street to Spruce, past the home of James M. Holmes to Montgomery, to Franklin, to Orange, to Bloomfield Avenue to the residence of Adrian Dickerson; through Watessing Avenue to Orange Street, to Bloomfield Avenue, to Washington, to Ridgewood Avenue to the residence of E. P. Mitchell; countermarching to Bloomfield Avenue, to the Centre.

A great many houses were handsomely decorated and illuminated along the line of march. Among others were those of Messrs. J. M. Holmes, J. B. Smith, Robert W. Gardner, the Rev. E. A. White, Chas. Gilbert, G. W. Hoppling, Walter Coggeshall, Adrian Dickerson, Frank H. Baker, James L. Crisp, E. B. Corby, Morris Van Vleet, M. S. Colgate, Wm. Thompson, W. F. May, Mrs. Belloni, D. S. Freeman, J. D. Gallagher, R. G. Thomas, R. C. Jones, Jas. L. Walsh, R. B. Davis, Frank S. Hall, R. S. Rudd, W. T. Tallaferro, E. P. Mitchell.

The appearance of a well-known Democrat in his yard or on the sidewalk was the signal for three ringing cheers from the paraders, and the cheering was incessant from the beginning to the end.

A feature of the parade, and one that caused many smiles, was the appearance of about thirty boys attired in suits made of coarse burlap and wearing pointed hats. One of their number carried a transparency announcing that they were the "Kean Guards," and stating that they were in "sackcloth and ashes." A soup tureen was displayed on the reverse side. It is believed that this "club" was organized for the occasion by James L. Crisp.

Frank G. Tower officiated as marshal of the parade, and Glen Ridge was represented by a score or more of well-known tariff-reformers and Democrats who reside in that section of the town.

At the conclusion of the parade a short and stirring address was made by the Hon. Robert S. Rudd.

Mr. Rudd referred to a gathering at the same place a few months previous, when a handsome banner was unfurled, and to the predictions made on that occasion. He spoke of the work done in Bloomfield, and of the fact that, while four years ago the Republican majority was 378, there had been an increased registration of over 300 voters, and the party of tariff reform had gained the entire increase.

"For this great victory which we are celebrating to-night," continued Mr. Rudd, "thanks are due, first to the voters who supported our ticket, second to the men who in various capacities worked at the polling places, and I cannot refrain from mentioning the name of a man who, perhaps more than any one else, by his work in perfecting our organization, and his assistance in the management of the local campaign, has been instrumental in making our success so great—Mr. Frank G. Tower." Mr. Rudd then declared the meeting adjourned, and applause and more fireworks ended the Presidential campaign of 1892.

The Thies-Gerard Concert.
The Thies-Gerard "Evening of Song" was the title of a concert given in the old Bethel Presbyterian Church on Wednesday night for the benefit of the Watessing Free Public Library. It was a success; the house was well filled, and the selections on the programme greatly enjoyed. The artists who took part were Miss Louise Gerard, soprano; Mr. Albert G. Thies, tenor; Miss May Brown, violinist. Both the vocal and instrumental music was excellent, and the artists were enthusiastically cheered. Mr. Thies being called out three times.

Hopler will be closed Thanksgiving Day—Advt.

The Increase of Profanity.

The good people of Watessing are deploring the extent to which the vice of profanity has taken hold of some of the young men. They swear too often and they swear too loud. They swear in the stores, in the barber shops, in the railroad depots, and in every other place where they may have occasion to go. Other people not so good say that there is no particular objection to swearing, providing it is done gracefully. This latter class assert that there are very few good swearers in Watessing. The majority of those who use five profane words out of every seven that they utter do it in such a bungling manner as to disgrace the art. This is perhaps a serious libel on the swearing fraternity. If it be true something should be done at once to remove the reproach. It is suggested that a number of them take a trip to Kentucky, where the art of swearing has attained perfection. The swearing of a Kentuckian is said to be very entertaining. But he draws the line as to places in which swearing is permissible. A Kentuckian never swears on an occasion where he thinks a man's business would be injured by it. This is a point that Watessing swearers should bear in mind. It would be better for them to swear the atmosphere of their own homes blue rather than to go into some man's place of business and fire off their profane volleys, and perhaps do an injury to the business by giving his place a "hell's kitchen" reputation. Swearing is undoubtedly a manly art among the weak-minded, but even this class in displaying their "manliness" should have some consideration for time and place. There will always be fools and there will always be swearing. The only hope is for an improvement in the manner of swearing.

Breaking Street Lamps.

Some very bad boys in Watessing are guilty of a very grievous offence, and for which they should be punished to the full extent of the law. They have broken every pane of glass in several gas-lamps on Watessing Avenue and Grace Street. It will cost the township several dollars to repair the damage to the lamps. The parents of the guilty parties should be made to foot the bill, and perhaps it will have an effect in causing them to make some effort towards restraining the mischievous propensities of their boys. Nothing gives a town such a forlorn appearance as a lot of broken lamps. If any resident of the neighborhood has any knowledge that will lead to the detection of the culprits they should communicate with Committee G. Lee Stout, Chairman of the Street-Lighting Committee. The sooner such outrages are stopped the better for the taxpayer and the reputation of the community.

Captures of an Opossum.

Since the draining of Silver Lake in our adjoining township of Belleville, and the clearing away of the underbrush, etc., the muskrats, squirrels, and other animals have been driven from their lairs. As Maurice Van Duyn, a resident of Eugene Place, Silver Lake, was on a visit to a neighbor, he came across a fine specimen of the opossum family and gave it a lively chase, but Mr. Possum succeeded in evading capture for the time by scaling a friendly apple tree on the premises of Edward Hecker and finding refuge on the limbs. Not to be outdone, however, Mr. Van Duyn procured a trap and patiently awaited events. On visiting the tree on Sunday he was awarded by finding the animal fast in the trap by one of his front feet. The possum weighed about ten pounds, and Mr. Van Duyn enjoyed a luscious feast of the remains.

A Chance for Bloomfield to Bid.

Location Wanted.—The Woolvorton Glow-Electric Light Company will locate its entire plant, which includes all its general manufacturing shops and store houses in the city, town or village which offers the greatest inducement in gift of land and money, together with water privileges, shipping facilities, etc.; 20 acres of land will be required.

This company intends to expend not less than \$300,000 and employ about 200 hands the first year. John E. Woolvorton, President, 1671 Third Avenue, New York City.

Broke a Bone.

While engaged in discussing the political situation with a friend on Monday, John Jenkins, to emphasize his argument, pounded the desk with such force as to break one of the small bones of his right hand.

Sabbath Observance.

There was a good attendance at the union prayer meeting held in the Westminster Church on Thursday night. Sabbath observance was the topic of the evening.

A Broad Street Dialogue.

Bachelor to friend who asks (as they meet an exceedingly well-dressed lady):
When you meet a lady so pompously attired and so charming as she, how do you excuse your bachelor life? Bachelor—
I don't excuse it at all. I conclude at once that she is a patron of the Imperial Fluted Patterns, sold only at the Domestic Art Rooms, Broad and West Park Streets, Newark.—Advt.

Characteristics of Hood's Shampanilla:
The largest sale, the most merit, the greatest cures. Try it, and realize its benefits.—Advt.
Happy and content is a home with "The Rochester," a lamp with the light of the morning. Call on Rochester Lamp Co., 48 Park Place, N. Y.—Advt.

The Pool-Box Again Robbed.

Members of Essex Truck Company were astonished and indignant when they entered the Truck-house on Thursday morning to find the door of the box in which the receipts from the pool table are deposited, torn from its hinges and the box robbed of its cash contents. This is not the first time the box has been depleted of its contents by some dishonest person, or in the language of the members "a thief." The pool table is a source of fruitful income to the company, and the amount deposited in the box sometimes reached as high as thirty dollars in a month. Some time since a marked decrease was noticed in the monthly returns from the box. The amount dwindled down to about eight dollars per month. The table was used as much as ever, and the depletion in the receipts was a mystery. A change was made in the custodian of the keys, but the tampering with the box still continued, and it was discovered that a screw driver had been used in prying it open. A double lock was then put on the box. This baffled the skill of the thief or thieves, and in order to get at the money they smashed the box. It is not known at what time the robbery occurred. It is thought that perhaps some one entered the Truck-house while the company was at the fire on Montgomery Street. The windows of the house were left open that night, and it would be an easy matter to enter the house through one of them. The company will discontinue the use of the box as a cash depository and will probably purchase a safe.

Bowling Scores.

A bowling contest has been arranged to take place at the Olympic which promises to arouse considerable interest. A team consisting of five members chosen from the Bloomfield Cyclers will play a series of five games with a team from the West End Club. The players whose averages have been the highest during the season will be selected to represent their respective clubs, so that a close and exciting contest may be looked for. Practice on both sides has already commenced in earnest, and in a friendly spirit the contestants will put forth every effort to gain a victory. The first game of the series will occur on Monday evening, November 21, at 8 P. M. The following games will be announced as soon as the date has been decided upon. A team is now being organized to challenge the winners in this contest, and there is every prospect of an increasing interest in this pleasurable exercise.

Among the scores published each week may be found those which would reflect credit upon professional bowlers even, while the majority are made by those who have attained their skill upon the Olympic alleys. The following are the highest during the week: F. C. Van Auker 208; H. S. Parker 191; Horace Freeman 180; W. H. Decker 185; Mrs. E. H. Cadmus 142; Mrs. F. M. Coesitt 134.

Westminster Church Fair.

Those who remember the very successful fair held in Westminster Church two years ago will be rejoiced to hear that another one is in contemplation. The Ladies' Society of the Church is now actively engaged in preparations for a fair to be held in the chapel early in December—probably on the 15th and 16th; the exact dates and other particulars will be announced later. The chapel will be handsomely decorated, and articles of every description suitable for holiday presents will be on sale, and we are assured that prices will be no higher than, if as high as, the same articles will be sold for in the stores. Refreshments will be served in the parlors of the Church, and everything will be done for the comfort and enjoyment of those who attend.

Caught in the Track.

A horse belonging to Reuben Dodd of this town fell on Monday night on the tracks of the Newark Traction Company where they are being laid at the crossing of the Delaware, Lackawanna and Western Railroad in East Orange. The horse was attached to a buggy in which a young lady and gentleman were riding. One of the fore legs of the animal was caught in a frog, while a hind leg slid under a rail. Twenty men, whose lively stable is across the street at this point, managed to extricate the horse without injuring him.

The Cost of the Sewer.

At the last meeting of the Orange Common Council a letter from Engineer Bassett was read estimating the cost of the Orange sewer system to be about \$925,000, of which amount, the letter went on to say, a large payment would be received from Bloomfield and Montclair.

A Dangerous Spot.

Complaint is made that the sewer contractors maintain a dangerous pitfall at the junction of Crown and Orange Streets. It is said to be a very dangerous place to cross on a dark night. The temporary shed erected there for the housing of the pumping engine obscures the street light.

Dorffinger's American Cut Glass:
is shown in every requisite for the table and in beautiful pieces for Wedding and Holiday Gifts. Genuine pieces have trade-mark label.
C. Dorffinger & Sons, 36 Murray Street, New York.—Advt.

THE STAR COURSE.

An Assured Success—About Three Hundred Course Tickets Sold in Two Days and Every One Seems to be Going.

The CITIZEN was right when two weeks ago it predicted a success for this series of first-class entertainments at popular prices. The interest now aroused seems wide-spread, and the committee of gentlemen in charge of the course are much pleased at the excellent prospects, and now feel assured that their efforts are being appreciated and that the people of Bloomfield mean to add to them by their support in purchasing tickets in order to make the Star Course as great a financial success as it promises to be in an artistic way.

The sale has started off exceedingly well and it is expected that almost every seat will be taken before the opening concert entertainment, which is to be given Wednesday, November 23, by the Ariel Ladies' Quartette of Boston, assisted by Miss Adele Weber, the humorous and dramatic reader. Miss Weber's name was not included in the original programme, but the committee, wishing to show their appreciation of the public's quick response in buying tickets, decided to add it as an extra feature for the first evening's entertainment. There will also be additional entertainment offered with Miss Russell's recitals, December 14, which will include instrumental music, under the direction of Mr. C. N. Parker. With these unlooked for extras, as now offered by the committee, the course will be still more popular in character and the public should now see to it that the attendance is large, for there should not be a vacant seat in the Sunday-school room of the First Presbyterian Church at any of the five Star Course entertainments. In another part of this paper the reader will find all particulars of the series, and can at once satisfy himself that it is being offered very much of entertainment, pleasure, and profit for very little money.

The World's Columbian Exposition.

The interest in the work of the World's Fair in the State of New Jersey is rapidly increasing, the work claiming especial attention at the present time being the part that women will take in its representation. The Newark Exchange for Women's Work decided at its last meeting to make an exhibit, and in this action the other Exchanges will probably join. It is desired that all representative work done by women be put upon exhibition, and it is fully believed that in this exhibit our State will stand second to none.

A meeting in the interest of women's work will be held in the Prudential Building, corner of Broad and Bank Streets, Newark, on Monday, November 21, at three o'clock. All women of both city and State are cordially invited to be present. Interesting speeches by prominent leaders in the work may be expected, and we hope the women of New Jersey will show by their attendance their appreciation of the stand it is to be hoped New Jersey will take. Among the officers are Mrs. T. T. Kinney, Vice-President of New Jersey, and Mrs. R. S. Grummon and Mrs. J. S. H. Clark, Committee.

Want More Frequent Mail Deliveries.

There is a growing sentiment in Glen Ridge in favor of postal delivery, and it will probably not be long before the system is extended to that locality. Glen Ridge people will not be satisfied with one delivery a day, as is now the case in Watessing. The residents of Ashland Avenue and adjoining streets who were given two deliveries a day when the system first went into operation are very much dissatisfied over being cut down to one delivery. The carriers' districts in the town are evidently too large. There is a demand for a reduction in the size of the districts and an increase in the number of carriers. People of course recognize that this is a matter that Postmaster Hayes cannot remedy at once. The increase of business at the office will bring it about.

Will Not be Put to a Vote.

To the suggestion that the numerous aspirants for the position of Postmaster in this town submit the matter to a vote of the party it is replied that the Democratic party does not do things that way. The Republicans tried that experiment when Mr. Hayes secured the office, and the hard feelings engendered in that contest have never been entirely obliterated.

A Post-Election Argument.

A cranky prohibitionist made the assertion on Tuesday night that the 43 votes cast for the Prohibition party on Election Day represented the sum-total of sincere Christians in this town. The assertion was made in conversation with an ardent Republican and was vigorously resented. An animated discussion ensued which nearly resulted in two of the town's esteemed citizens doing violence to each other's persons.

The Union Service.

The Thanksgiving service, in which the various congregations of the town will unite, will be held in the Baptist Church on Thursday, at 11 A. M. The sermon will be preached by the Rev. R. B. Collins of the Park M. E. Church.

Call and get Hopler's prices on poultry before purchasing elsewhere.—Advt.

Wedded in the Church of the Sacred Heart.

Miss Josephine, daughter of Mr. and Mrs. John Cullen of No. 35 Hickory Street, was married to Patrick Ward, a prominent business man of Newark, at three o'clock last Wednesday afternoon. The ceremony took place in the Church of the Sacred Heart and was performed by the Rev. J. M. Nardello, pastor of the church. The church was filled with friends of the happy couple, and was decorated with palms. Prof. Piderit presided at the organ. The bride wore a travelling dress of rose and carried a bunch of white chrysanthemums. The bridesmaid was attired in a dress of brown silk. The groomsmen were Frank Thompson of Newark, and Miss Gerlie O'Hara of Bloomfield was the bridesmaid. John Cullen, a brother of the bride, John Brady of Montclair, John Drury, and Joseph Durr were the ushers. The presents, which were displayed at the residence of the bride, were costly, numerous, and handsome. After a short wedding tour Mr. and Mrs. Ward will reside in Newark.

McDowell-Dalrymple.

At Christ Episcopal Church, Liberty Street, on Thursday, at 12.30 o'clock Miss Phoebe Dalrymple, youngest daughter of Wallace W. Dalrymple, was married to Louis F. McDowell of Philadelphia, Pa. The Rev. E. A. White, rector of the church, officiated. The church was decorated with white chrysanthemums from the hot-houses of John Rassebach & Son. Prof. Piderit presided at the organ and played the wedding march. The bride wore a rich gown of white silk with ostrich trimmings. There were no bridesmaids. The best man was Harmon Atcherson of Philadelphia. The ushers were Harry and Albert McDowell, brothers of the groom, Paul V. Heaton of Philadelphia and S. Grover Baldwin of this place. Numerous handsome and costly presents were received. After a short wedding tour Mr. and Mrs. McDowell will reside in Philadelphia.

Where Stone Roads Were Laid.

In the expenditure of money in macadamizing roads during the past year the various wards have laid as follows: First Ward, 3,295 lineal feet of macadam, costing \$3,610.30; Second Ward, 6,653 lineal feet, \$5,212.61; Third Ward, 6,368 lineal feet, \$5,799.81. With the exception of Watessing Avenue, all the Third Ward work was done in Glen Ridge. Including Ridgewood Avenue and Hillside Avenue in Glen Ridge, 7,365 lineal feet of macadam was put down on the streets of that section at a cost of \$7,366. Glen Ridge got 40 per cent of the \$18,000 appropriated for stone roads.

Fairview's Association.

The Fairview Improvement Association met on Monday night at the home of its Treasurer, Mr. Mohrman, and it was a glad sight to the members present to see their honored President, C. L. Potter, again in the chair as of yore and fully restored to health. This alone made the meeting exceedingly pleasant, as for nearly five years he has been a very valued member and officer of the Association. The meeting was an animated one, business of importance was discussed, and the meeting adjourned to assemble again on Nov. 28, at the home of Mr. Hecker.

The Exempt Firemen.

The Bloomfield Exempt Firemen's Association held its annual meeting in the Truck-house on Tuesday night. F. G. Tower was elected President, J. Banks Reford, first Vice-President, Georg Roubaud, second Vice-President, George M. Wood, Treasurer, and J. Howard Hardcastle, Secretary. There are about sixty exempt firemen in the town. The Secretary was instructed to give them all an invitation to join the Association at its next meeting in the Truck-house on December 20.

A Sickie Drill.

The Sunny Hour Society of the Park M. E. Church will repeat at Union Hall, on Friday evening, November 25, for the benefit of the sick fund of the Knights of Honor, the entire programme as given in the parlors of the Park M. E. Church. This will be preceded by vocal and instrumental music and humorous recitations, the whole to conclude with the "Sickie Drill" by the members of the Sunny Hour Society.

They Will Give an Alarm.

An association has been formed by the business men of East Orange. One of its functions will be to give a general alarm among the merchants when a swindler arrives in town. Furthering improvements in the township is another aim of the association.

V. P. S. C. E. in Silver Lake.

The anniversary of the Young People's Christian Endeavor Society of Silver Lake Chapel was held on Sunday evening. Interesting addresses were made by President Herring and J. E. Marfield on the state of the work in that field. Shoenthal is sole agent for W. L. Douglas's shoes.—Advt.

The Venders' License.

The vendors' license ordinance was adopted by the Township Committee in 1890 on petition of the merchants of the town. It has never met with the unanimous favor of the entire committee and is frequently on the verge of being rescinded. Its enforcement under the present condition requires a policeman constantly on duty. The income from licenses meets the expense of collecting them, but produces no surplus revenue. Whatever benefit derived from it at present accrues only to the merchants of the town by way of incidental protection. But the time is near at hand when policemen will be kept on permanent duty in the town and the license fees can be applied toward paying them. It is a proper method of raising revenue and is in force in all the surrounding towns, where it is appreciated as a source of income. In other towns its enforcement has not been the subject of the semi-legal quibbling that has been indulged in over the matter in this town. Subordinate officials have confined themselves strictly to the business of taking in the fee.

The Bloomfield Turn Verein.

The regular monthly meeting of the Bloomfield Turn Verein held at a Metz's Hall on the evening of November 14 was largely attended; Professor Piderit was unanimously elected President in place of Mr. L. Bloch. The apparatus recently purchased from the late Orange Turn Verein, consisting of a parallel bar, horizontal bar, vaulting horse, trapeze and large mattress, 12x24 feet, together with the parallel bar, the gift of Mr. Henry Lindenmeyr, were placed in position. The Verein has been presented with a number of weights, dumbbells, and Indian clubs, by Messrs. Paul Herold and Gustav Aue and Mr. Henry Bollpiller of Montclair. The Verein will hereafter meet every first and third Tuesday in each month, immediately after the turning exercises are over. A boys' class has been formed and Mr. Paul Herold, the Turnwart, has been placed in charge. They will turn every Tuesday and Friday evening from 7 to 8.30 P. M. All boys between 6 and 18 years of age are eligible; the dues are 15 cents per month.

An Employee of the Morris Canal Company Severely Injured.

Thomas Costigan, Jr., an employee of the Morris Canal Company residing on Plane Street, was severely injured on Wednesday, while engaged in loading old iron on a boat at the Newark plane. Mr. Costigan was standing on a plank on the boat when the plane tender started the car by mistake on a false signal. The second car struck the plank, knocking him three feet high, and he fell to the bottom of the boat. He was picked up unconscious by his fellow workmen. One of the small bones in his leg was broken and he was severely injured about the body. He was taken to his home by Foreman Peter Mellick of the Newark section. Dr. Ward attended to his injuries.

The Knights of Pythias.

W. E. Hitchcock of Newark, a member of the Grand Lodge, Knights of Pythias, and a candidate for Grand Master-at-Arms at its next session, paid a fraternal visit to Eureka Lodge on Tuesday evening. Mr. Hitchcock attended the session of the Grand Lodge held in Kansas City last summer, and spoke of the hospitable manner in which the "Army of the White Lily" was received there. He also explained the new ritual that has been adopted by the Supreme Lodge and which will go into effect in January. There was a good attendance of the members present, notwithstanding the inclemency of the weather on that evening.

A New Mode of Collecting.

A new method of collecting the money for defraying the annual expenses of the Mountsides Hospital has been instituted by the Board of Governors. Each of the towns interested in the maintenance of the hospital will be divided into districts and be canvassed by a member of the Board. A call will be made at each house and an addressed envelope left there in which subscriptions can be sent to the local treasurer.

Called Out the Firemen.

The old mill on Montgomery Avenue, owned by E. M. Stiles, was set on fire at half-past one o'clock on Thursday morning. An alarm was sounded from box 36, the person giving the alarm claiming he could not get a key to box 34, from which the alarm should have been given. The flames were extinguished before the department arrived. This is the second time the place has been fired.

A New Factory in Watessing.

If the rumors about the new factory to be built at Watessing are well founded it is going to be a very large establishment. It will be of brick, and the dimensions of the building about 300 by 200 feet, and will give employment to between two and three hundred hands. A switch from the D. L. & W. R. R. will run into the factory yard.

Buy your Thanksgiving turkeys at Hopler's. Stock will be large and prices low.—Advt.
